

34-1040: Monoclonal Antibody to GAP43 (Clone: 5E8)

Clonality :	Monoclonal
Clone Name :	5E8
Application :	WB, ICC/IF, IHC
Reactivity :	Human, Rat, Mouse
Gene :	GAP43
Gene ID :	2596
Uniprot ID :	P17677
Format :	Purified
Alternative Name :	Axonal membrane protein GAP-43, Growth-associated protein 43, Neural phosphoprotein B-50, pp46
Isotype :	Mouse, IgG1
Immunogen Information :	Recombinant full-length Human GAP43

Product Info

Amount :	50 µl / 100 µl
Content :	Antibody is supplied as an aliquot of 1 mg/ml of affinity purified antibody.
Storage condition :	Store the antibody at 4°C; stable for 6 months. For long-term storage; store at -20°C. Avoid repeated freeze and thaw cycles.

Application Note

WB: 1:1,000-5,000 IF/ICC and IHC: 1:1,000-5,000

Figure-1: Immunofluorescent analysis of cortical neuron-glia cell culture from E20 rat stained with mouse mAb to GAP43,(34-1040), dilution 1:1,000, in red, and costained with chicken pAb to GFAP,(34-1046), dilution 1:2,000, in green. The blue is DAPI staining of nuclear DNA. GAP43 antibody labels protein expressed in the axonal membrane of neuronal cells, while the GFAP antibody stains astroglial cells.

Figure-2: Western blot analysis of tissue and cell lysates using mouse mAb to GAP43,(34-1040), dilution 1:2,000, in green: [1] protein standard (red), [2] rat brain, [3] rat spinal cord, [4] mouse brain, [5] mouse spinal cord, [6] C6 cells, [7] SH-SY5Y cells. The single band at 43kDa corresponds to GAP43 protein. The protein is expressed in rodent and human neurons and neuronal derived cells but not in C6 cells which are of glial origin. Note that the protein from SH-SY5Y cells, the only line of human origin tested here, has a slightly lower SDS-PAGE than the rodent proteins.
