

10-6504: Mouse Monoclonal Antibody to HIS Tag (Clone: 6AT18)(Discontinued)

Clonality : Monoclonal

Clone Name : 6AT18

Application : WB

Format : Purified

Isotype : Mouse IgG1

Description

Epitope tags consisting of short sequences recognized by well-characterized monoclonal antibodies have been widely used in the study of protein expression in various systems. The 6xHIS tag (HHHHHH), recognized by the monoclonal antibody clone 6AT18 provides an established example of this application. 6xHIS-tagged fusion proteins are easily purified from cell lysates by affinity chromatography using Nickel-Sepharose resin. Anti-6xHIS monoclonal antibody provides a simple solution to detect the expression of HIS-tagged fusion proteins in cells.
