10-6514: Mouse Monoclonal Antibody to Phospho-PLM(S68) (Clone: 41AT858.235)(Discontinued)

Clonality: Monoclonal
Clone Name: 41AT858.235

Application :WBReactivity :MouseGene :Fxyd1Gene ID :56188Uniprot ID :Q9Z239Format :Purified

Alternative Name: Phospholemman, FXYD domain-containing ion transport regulator 1, Fxyd1, Plm

Isotype: Mouse IgG1 **Immunogen Information:** Synthetic Peptide

Description

This gene encodes a member of the FXYD family of small membrane proteins that share a 35-amino acid signature sequence domain, beginning with the sequence PFXYD and containing 7 invariant and 6 highly conserved amino acids. The protein encoded by this gene is a plasma membrane substrate for several kinases, including protein kinase A, protein kinase C, NIMA kinase, and myotonic dystrophy kinase. It is thought to form an ion channel or regulate ion channel activity and act as an accessory protein of Na,K-ATPase. Alternatively spliced transcript variants have been described.

Product Info

Amount : 80 μl / 400 μl

Purification: Protein G Chromatography

Content: Purified monoclonal antibody supplied in PBS with 0.09% (W/V) sodium azide.

Storage condition:

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term store at -20°C in small aliquots

to prevent freeze-thaw cycles.

Application Note

WB~1:100~500
