43-1078: Monoclonal Antibody to Rat IgG2a Isotype Control NALE™ Purified (Clone: 2A3)

Clonality : Monoclonal
Clone Name : 2A3
Application : FACS
Reactivity : Rat
Isotype : Rat IgG2a

Description

The 2A3 antibody was obtained by hybridization of Mouse NS-1 myeloma cells with spleen cells harvested from BALB/c mice immunized with phytohemagglutinin-activated human T cells. The 2A3 antibody is a CD25 clone and used as an Isotype Control for rat IgG2a antibodies.

Product Info

Amount :	100 µg
Content :	2 mg/ml in Phosphate-buffered aqueous solution, ph7.2.
Storage condition :	The product should be stored undiluted at 4°C. Do not freeze. The monoclonal antibody was purified utilizing affinity chromatography. The endotoxin level is determined by LAL test to be less than 0.01 EU/µg of the protein.

Application Note

The antibody has been analyzed for quality through the flow cytometric analysis of the relevant cell type. It is recommended that the reagent be titrated for optimal performance for each application.

For Research Use Only. Not for use in diagnostic/therapeutics procedures.
