30-2239: PE Conjugated, Anti-CD105 / Endoglin Monoclonal Antibody (Clone:MEM-229)

Clonality: Monoclonal
Clone Name: MEM-229
Application: FACS
Reactivity: Pig,Human

Conjugate: PE
Gene: ENG
Gene ID: 2022
Uniprot ID: P17813
Alternative Name: ENG,END
Isotype: Mouse IgG2a

Immunogen Information: Recombinant Vaccinia virus containing the human CD105 (L-isoform) cDNA.

Description

CD105 (Endoglin) is a homodimeric transmembrane glycoprotein serving in presence of TGFbetaR-2 as a receptor for TGFbeta-1 and TGFbeta-3. CD105 is highly expressed on endothelial cells and promotes angiogenesis during wound healing, infarcts and in a wide range of tumours and its gene expression is stimulated by hypoxia. CD105 prevents apoptosis in hypoxic endothelial cells and also antagonises the inhibitory effects of TGFbeta-1 on vascular endothelial cell growth and migration. Normal cellular levels of CD105 are required for formation of new blood vessels.

Product Info

Amount: 100 tests

Storage condition: Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.

Application Note

Flow cytometry: The reagent is designed for analysis of human blood cells using 20 μ l reagent / 100 μ l of whole blood or 106 cells in a suspension. The content of a vial (2 ml) is sufficient for 100 tests.
