

30-2044: FITC Conjugated, Anti-CD117 / c-Kit Monoclonal Antibody (Clone:104D2)

Clonality :	Monoclonal
Clone Name :	104D2
Application :	FACS
Reactivity :	Human
Conjugate :	FITC
Gene :	KIT
Gene ID :	3815
Uniprot ID :	P10721
Alternative Name :	KIT,SCFR
Isotype :	Mouse IgG1
Immunogen Information :	MOLM-1 megakaryocytic cells

Description

CD117 / c-Kit (stem cell factor receptor) is a 145 kDa receptor tyrosine kinase that regulates cell proliferation, adhesion, chemotaxis, apoptosis and other cell processes. Mutations of CD117 / c-Kit can lead to growth and progression of tumours. After binding of its ligand, SCF (stem cell factor), CD117 / c-Kit is autophosphorylated on its intracellular domains and activated. CD117 is expressed on pluripotent hematopoietic progenitor cells, mast cells and various cancer cells, e.g. acute myeloid leukemia cells.

Product Info

Amount :	100 tests
Storage condition :	Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.
