## 30-2044: FITC Conjugated, Anti-CD117 / c-Kit Monoclonal Antibody (Clone:104D2)

Clonality: Monoclonal **Clone Name:** 104D2 Application: FACS Reactivity: Human Conjugate: **FITC** Gene: **KIT** Gene ID: 3815 **Uniprot ID:** P10721 **Alternative Name:** KIT,SCFR Isotype: Mouse IgG1

Immunogen Information: MOLM-1 megakaryocytic cells

## **Description**

CD117 / c-Kit (stem cell factor receptor) is a 145 kDa receptor tyrosine kinase that regulates cell proliferation, adhesion, chemotaxis, apoptosis and other cell processes. Mutations of CD117 / c-Kit can lead to growth and progression of tumours. After binding of its ligand, SCF (stem cell factor), CD117 / c-Kit is autophosphorylated on its intracellular domains and activated. CD117 is expressed on pluripotent hematopoietic progenitor cells, mast cells and various cancer cells, e.g. acute myeloid leukemia cells.

## **Product Info**

Amount: 100 tests

**Storage condition :** Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.
