30-1654: Anti-CD2 Monoclonal Antibody (Clone:TS1/8)-Low Endotoxin

Clone Name: Monoclonal TS1/8

Application: FACS, Functional Assay

Reactivity: Human
Gene: CD2
Gene ID: 914
Uniprot ID: P06729

Format: Low Endotoxin

Alternative Name: T-cell surface antigen CD2, Erythrocyte receptor, T-cell surface antigen T11/Leu-5

Isotype: Mouse IgG1

Immunogen Information: Cytotoxic T lymphocytes

Description

CD2 (also known as LFA-2) belongs to T lymphocyte glycoproteins of immunoglobulin superfamily. Its interaction with CD58 stabilizes adhesion between T cells and antigen presenting or target cells. Relatively low affinity of CD2 to CD58 (as measured in solution) is compensated within the two-dimensional cell-cell interface to provide tight adhesion. Moreover, T cell activation induces increased CD2 expression and its lateral mobility, making easier contact between CD2 and CD58. Subsequently, T cell activation causes fixation of CD58-CD2 at sites of cell-cell contact, thereby strengthening intercellular adhesion. CD2 deficiency reduces intestinal inflammation and helps to control infection.

Product Info

Amount: 0.1 mg

Purification : Purified by protein-A affinity chromatography

Storage condition : Store at 2-8°C. Do not freeze.

Application Note

Flow Cytometry Functional Application blocking
