30-2276: Anti-CD324 / E-Cadherin Monoclonal Antibody (Clone:67A4)-PE Conjugated

Clonality: Monoclonal Clone Name:

FACS, IP, WB, IHC-Fr, ICC Application:

67A4

Reactivity: Human Conjugate: PΕ Gene: CDH1 Gene ID: 999 **Uniprot ID:** P12830

Alternative Name: CDH1,CDHE,UVO

Isotype: Mouse IgG1 Immunogen Information: T-47D cells

Description

CD324 / E-cadherin is an epithelial cell surface molecule, which provides calcium-dependent homophilic interactions with Ecadherin of another cell. These intaractions take part in morphogenetic programs controlling the maintenance of the structural and functional integrity of epithelia and affect invasive potential of epithelial neoplasms. CD324 / E-cadherin is implicated in cell growth and differentiation, cell recognition, and sorting during developmental morphogenesis, as well as in aggregationdependent cell survival. CD324 / E-cadherin-mediated cell adhesion system is highly regulated from inside the cell by a number of intracellular signaling pathways.

Product Info

100 tests Amount:

Storage condition: Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.
