30-1310: Anti-CD62L / L-selectin Monoclonal Antibody (Clone:LT-TD180)

Clonality: Monoclonal Clone Name: LT-TD180 Application: **FACS** Reactivity: Human **SELL** Gene: Gene ID: 6402 **Uniprot ID:** P14151 Format: Purified

Alternative Name: SELL,LNHR,LYAM1

Isotype: Mouse IgG1

Immunogen Information: Peripheral blood leukocytes

Description

CD62L (L-selectin) is an adhesion glycoprotein that is constitutively expressed on the cell surface of leukocytes and mediates their homing to inflammatory sites and peripheral lymph nodes by enabling rolling along the venular wall. CD62L is also involved in activation-induced neutrophil aggregation. Activation-dependent CD62L shedding, however, counteracts neutrophil rolling. CD62L has also signaling roles including enhance of chemokine receptor expression. Similarly to CD62P, the major ligand of CD62L is PSGL-1 (P-selectin glycoprotein ligand-1).

Product Info

Amount: 0.1 mg

Purification: Purified by precipitation and chromatography

Storage condition : Store at 2-8°C. Do not freeze.
