## 30-1473: Anti-CD62P / P-selectin Monoclonal Antibody (Clone:AK4)

Clonality: Monoclonal

Clone Name: AK4

Application: FACS, IP, WB, ICC, Functional Assay

Reactivity: Human, Non-Human Primates

 Gene :
 SELP

 Gene ID :
 6403

 Uniprot ID :
 P16109

 Format :
 Purified

Alternative Name: SELP,GMRP,GRMP

**Isotype :** Mouse IgG1 **Immunogen Information :** Human platelets

## **Description**

CD62P (P-selectin) is an adhesion glycoprotein that is expressed on platelets and endothelial cells upon their activation. Interaction between CD62P and its mucin-like ligand PSGL-1 (P-selectin glycoprotein ligand-1) expressed on the microvilli of most leukocytes supports leukocyte rolling along postkapillary venules at the earliest time of inflammation. Both CD62P and PSGL-1 are extended glycoproteins that form homodimers. CD62P dimerization is probably mediated through interactions of the transmembrane domains and stabilizes leukocyte tethering and rolling, probably by increasing rebinding within a bond cluster.

## **Product Info**

Amount: 0.1 mg

Purification: Purified by protein-A affinity chromatography

**Storage condition :** Store at 2-8°C. Do not freeze.

## **Application Note**

Flow Cytometry Recommended dilution:1.5 µg/ml

Immunoprecipitation Western Blotting Immunocytochemistry Functional Application Blocking
