## 30-1403: Anti-CD8a Monoclonal Antibody (Clone:53-6.7)

Rat IgG2a

Clonality: Monoclonal **Clone Name:** 53-6.7 FACS Application: Reactivity: Mouse Gene: Cd8a Gene ID: 12525 **Uniprot ID:** P01731 **Purified** Format: **Alternative Name:** Cd8a,Lyt-2,Lyt2

Immunogen Information: Mouse spleen cells

## **Description**

Isotype:

The CD8a (CD8 alpha) subunit of CD8 T cell coreceptor is expressed in CD8 alpha/beta heterodimers on majority of MHC Irestricted conventional T cells and thymocytes and in CD8 alpha/alpha homodimers on subsets of memory T cells, intraepithelial lymphocytes, NK cells, macrophages and dendritic cells. Regulation of CD8 beta level on T cell surface seems to be an important mechanism to control their effector function. Assembly of CD8 alpha/beta but not alpha/alpha dimers is connected with formation or localization to the lipid rafts. Recruiting triggered TCR complexes to these membrane microdomains as well as affinity of TCR to MHC I is modulated by CD8, thereby affecting the functional diversity of the TCR signaling.

## **Product Info**

Amount: 0.1 mg

Purified by protein-A affinity chromatography **Purification:** 

Store at 2-8°C. Do not freeze. Storage condition:

## **Application Note**

Flow Cytometry Recommended dilution:1.5 µg/ml

Immunoprecipitation Immunohistochemistry Immunohistochemistry (frozen sections) Recommended dilution: 1:1000

Application note: Formaldehyde fixation is not recommended, acetone fixation is preferred.

Immunocytochemistry Functional Application Isolation and depletion of CD8+ cells, blocking of cytotoxicity, inhibition of CD8+ T cell proliferation.
