30-2269: Anti-CD8a Monoclonal Antibody (Clone:53-6.7)-PE Conjugated

Clonality: Monoclonal **Clone Name:** 53-6.7 Application: FACS Reactivity: Mouse Conjugate: PΕ Gene: Cd8a Gene ID: 12525 **Uniprot ID:** P01731

Alternative Name: Cd8a,Lyt-2,Lyt2 Isotype: Rat IgG2a

Immunogen Information: Mouse spleen cells

Description

The CD8a (CD8 alpha) subunit of CD8 T cell coreceptor is expressed in CD8 alpha/beta heterodimers on majority of MHC I-restricted conventional T cells and thymocytes and in CD8 alpha/alpha homodimers on subsets of memory T cells, intraepithelial lymphocytes, NK cells, macrophages and dendritic cells. Regulation of CD8 beta level on T cell surface seems to be an important mechanism to control their effector function. Assembly of CD8 alpha/beta but not alpha/alpha dimers is connected with formation or localization to the lipid rafts. Recruiting triggered TCR complexes to these membrane microdomains as well as affinity of TCR to MHC I is modulated by CD8, thereby affecting the functional diversity of the TCR signaling.

Product Info

Amount: 0.1 mg

Storage condition: Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.
