30-1655: Anti-CD95 / Fas Monoclonal Antibody (Clone:EOS9.1)-Low Endotoxin

Clonality: Monoclonal Clone Name: EOS9.1

Application: Functional Assay

Reactivity: Human
Gene: FAS
Gene ID: 355
Uniprot ID: P25445

Format: Low Endotoxin

Alternative Name: Apo-1 antigen, Apoptosis-mediating surface antigen FAS, FASLG receptor

Isotype: Mouse IgM

Immunogen Information: P815 cells transfected with human CD95

Description

CD95 (Fas, APO-1), a 46 kDa transmembrane glycoprotein, is a cell death receptor of the TNFR superfamily. Stimulation of CD95 results in aggregation of its intracellular death domains, formation of the death-inducing signaling complex (DISC) and activation of caspases. In type I cells caspase 3 is activated by high amounts of caspase 8 generated at the DISC, in type II cells low concentration of caspase 8 activates pathway leading to the release of cytochrome c from mitochondria and activation of caspase 3 by cytochom c. Besides its roles in induction of apoptosis, Fas also triggers pro-inflammatory cytokine responses.

Product Info

Amount: 0.1 mg

Purification: Purified by precipitation and chromatography

Storage condition : Store at 2-8°C. Do not freeze.

Application Note

Functional Application in vitro induction of apoptosis
