

## 30-1444: Anti-Granzyme B Monoclonal Antibody (Clone:CLB-GB11)

| Clonality :             | Monoclonal                                    |
|-------------------------|---|
| Clone Name :            | CLB-GB11                                      |
| Application :           | FACS  |
| Reactivity :            | Human, Non-Human Primates                     |
| Gene :                  | GZMB  |
| Gene ID :               | 3002  |
| Uniprot ID :            | P10144  |
| Format :                | Purified                                      |
| Alternative Name :      | GZMB,CGL1,CSPB,CTLA1,GRB                      |
| Isotype :               | Mouse IgG1                                    |
| Immunogen Information : | Human NK cell line YT-INDY-derived granzyme B |

## **Description**

Granzyme B is a serine protease that is expressed in cytoplasmic granules of cytotoxic T lymphocytes and NK cells. Vectorial secretion of perforin and granzymes is responsible for their granule-mediated cytotoxicity. Granzyme B plays a pivotal role in the induction of apoptosis in the target cells by activation of caspases. Moreover, granzyme B was reported to cleave directly alpha-tubulin, leading to perturbation of microtubule networks during the induced cell death.

## **Product Info**

| Amount :            | 0.1 mg  |
|---------------------|---|
| Purification :      | Purified by protein-A affinity chromatography |
| Storage condition : | Store at 2-8°C. Do not freeze.                |
