30-1078: Anti-Ikaros Monoclonal Antibody (Clone:4E9)

Clonality: Monoclonal

 Clone Name :
 4 E 9

 Application :
 FACS

 Reactivity :
 Human

 Gene :
 IKZF1

 Gene ID :
 10320

 Uniprot ID :
 Q13422

 Format :
 Purified

Alternative Name: IKZF1,IK1,IKAROS,LYF1,ZNFN1A1

Isotype: Mouse IgG1

Immunogen Information: Recombinant human Ikaros (C-terminal part)

Description

Ikaros, also known as IKZF1 (Ikaros family zinc finger protein 1) is a hematopoietic-specific transcription factor involved in the regulation of lymphocyte development, together with other members of this family, such as Aiolos and Helios. Ikaros forms homo- and heterodimers with these proteins and functions predominantly in early hematopoietic development. Expression of Ikaros, Aiolos and Helios is restricted to cells of the hematopoietic system, whereas other family members, Eos and Pegassus, are more widely expressed. Disruption of Ikaros leads to T and B cell leukemias.

Product Info

Amount: 0.1 mg

Purification : Purified by protein-A affinity chromatography

Storage condition : Store at 2-8°C. Do not freeze.

Application Note

Flow Cytometry Application note: intracellular staining Immunoprecipitation Western Blotting Immunocytochemistry
