

30-2148: PE Conjugated, Anti-PCNA Monoclonal Antibody (Clone:PC10)

Clonality :	Monoclonal
Clone Name :	PC10
Application :	FACS
Reactivity :	Human
Conjugate :	PE
Gene :	PCNA
Gene ID :	5111
Uniprot ID :	P12004
Alternative Name :	Proliferating cell nuclear antigen
Isotype :	Mouse IgG2a
Immunogen Information :	recombinant rat PCNA

Description

PCNA (proliferating cell nuclear antigen), which is the DNA polymerase delta auxiliary protein acting in homotrimeric form to increase the processivity of leading strand synthesis during DNA replication. PCNA is expressed in the nucleus of all proliferating cells. In response to DNA damage, it is ubiquitinated and is involved in the RAD6-dependent DNA repair pathway. PCNA is a useful marker of DNA synthesis, as its form not involved in DNA synthesis degrades in histological preparations in the presence of organic solvents.

Product Info

Amount :	100 tests
Storage condition :	Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.

Figure 1: Intracellular staining of PCNA in K562 cells with anti-PCNA (PC10) PE.
