30-2507: Anti-Bov MHC Class I (Alpha+Beta2m chains) Antibody (Clone : IVA26)

Clonality :	Monoclonal
Clone Name :	IVA26
Application :	FACS , IP, IHC(F)
Reactivity :	Mouse, Human, Rabbit
Format :	Purified
Isotype :	Mouse IgG1
Immunogen Information :	bovine lymphocytes

Description

HLA-class I major histocompatibility (MHC) antigens are intrinsic membrane glycoproteins expressed on nucleated cells and noncovalently associated with an invariant beta2 microglobulin. They carry foreign determinants important for immune recognition by cytotoxic T cells, thus important for anti-viral and anti-tumour defence.
Specificity : The mouse monoclonal antibody IVA26 recognizes an extracellular epitope on MHC class I (alpha + beta2m chains) expressed in various animals.

Product Info

Amount :	0.1 mg
Purification :	Purified by protein-A affinity chromatography
Content :	1 mg/ml Formulation : Phosphate buffered saline (PBS) solution with 15 mM sodium azide
Storage condition :	Store at 2-8°C. Do not freeze.

For Research Use Only. Not for use in diagnostic/therapeutics procedures.
