

**12-9004-B: Biotinylated Anti-BCMA antibody(DM6), Rabbit mAb**

|                           |                             |
|---------------------------|-----------------------------|
| <b>Clonality :</b>        | Monoclonal                  |
| <b>Clone Name :</b>       | DM6                         |
| <b>Application :</b>      | ELISA, FACS                 |
| <b>Reactivity :</b>       | Human                       |
| <b>Format :</b>           | Powder                      |
| <b>Alternative Name :</b> | TNFRSF17, CD269, BCM, BCMA, |

**Description**

The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes, and may be important for B cell development and autoimmune response. This receptor has been shown to specifically bind to the tumor necrosis factor (ligand) superfamily, member 13b (TNFSF13B/TALL-1/BAFF), and to lead to NF-kappaB and MAPK8/JNK activation. This receptor also binds to various TRAF family members, and thus may transduce signals for cell survival and proliferation. [provided by RefSeq, Jul 2008]

**Product Info**

|                            |   |
|----------------------------|---|
| <b>Amount :</b>            | 100 µg  |
| <b>Purification :</b>      | Purified from cell culture supernatant by affinity chromatography |
| <b>Content :</b>           | Not Sterile   |
| <b>Storage condition :</b> | Store at 2 °C-8 °C for 6 months                                   |

**Application Note**

FACS 1/100
