

## 12-9016-B: Biotinylated Anti-BCMA antibody(DM16), Rabbit mAb(Discontinued)

Clonality:MonoclonalClone Name:DM16Application:ELISAReactivity:HumanAlternative Name:TNFRSF17, CD269, BCM, BCMA,

## **Description**

The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes, and may be important for B cell development and autoimmune response. This receptor has been shown to specifically bind to the tumor necrosis factor (ligand) superfamily, member 13b (TNFSF13B/TALL-1/BAFF), and to lead to NF-kappaB and MAPK8/JNK activation. This receptor also binds to various TRAF family members, and thus may transduce signals for cell survival and proliferation. [provided by RefSeq, Jul 2008]

## **Product Info**

Amount : Purification :	100 $\mu$ g Purified from cell culture supernatant by affinity chromatography
Content :	Not Sterile
Storage condition :	Store at 2 °C-8 °C for 6 months

## **Application Note**

FACS 1/100; IP 1/30
