## 12-9035-B: Biotinylated Anti-CD138 antibody(DM45), Rabbit mAb

Clonality: Monoclonal
Clone Name: DM45
Application: ELISA, FACS
Reactivity: Human
Format: Powder

Alternative Name: SDC1, Syndecan-1, SYND1, SDC,

## **Description**

Syndecan-1 (SYND1 or SDC1) is also known as CD antigen CD138, is a transmembrane (type I) heparan sulfate proteoglycan and is a member of the syndecan proteoglycan family. The syndecans mediate cell binding, cell signaling, and cytoskeletal organization and syndecan receptors are required for internalization of the HIV-1 tat protein. The syndecan-1 / SDC1 protein functions as an integral membrane protein and participates in cell proliferation, cell migration and cell-matrix interactions via its receptor for extracellular matrix proteins. It is a useful marker for plasma cells, but only if the cells tested are already known to be derived from blood.

## **Product Info**

**Amount :** 100 μg

**Purification:** Purified from cell culture supernatant by affinity chromatography

Content: Not Sterile

**Storage condition:** Store at 2 °C-8 °C for 6 months

## **Application Note**
