## 10-4198: Anti-mCD63 Monoclonal Antibody (Clone: ABM58E4)

Clonality: Monoclonal Clone Name: ABM58E4 Reactivity: Mouse Cd63 Gene: Gene ID: 12512 P41731 **Uniprot ID:** Format: Purified **Alternative Name: CD63** 

Isotype: Rat IgG2a, Lamda

A partial length recombinant mCD63 protein (amino acids 70-225) was used as the immunogen for Immunogen Information:

this antibody.

## **Description**

CD63 (LAMP-3, lysosome-associated membrane protein-3), a glycoprotein of tetraspanin family, is present in late endosomes, lysosomes and secretory vesicles of various cell types. It is also present in the plasma membrane, usually following cell activation. Hence, it has become an widely used basophil activation marker. In mast cells, however, CD63 exposition does not need their activation. CD63 interacts with integrins and affects phagocytosis and cell migration, it is also involved in H/K-ATPase trafficking regulation of ROMK1 channels. CD63 also serves as a T-cell costimulation molecule. Expression of CD63 can be used for predicting the prognosis in earlier stages of carcinomas.

## **Product Info**

Amount: 100 µg

**Purification:** Purified by protein-G chromatography

100 µg in 200 µl PBS containing 0.05% BSA and 0.05% sodium azide. Sodium azide is highly Content:

toxic.

Store the antibody at 4°C, stable for 6 months. For long-term storage, store at -20°C. Avoid Storage condition:

repeated freeze and thaw cycles.
