

## 32-18071: Recombinant Human pro-Beta NGF Protein

**Uniprot ID :** P01138

**Alternative Name :** Beta-Nerve Growth Factor; Beta-NGF; NGF; NGFB;?-NGF; pro-Beta NGF

### Description

Molecular weight: 25 KDa

Description: Recombinant Human pro-Nerve Growth Factor is produced by our E.coli expression system and the target gene encoding Glu19-Ala241 is expressed.

The precursor form of the nerve growth factor (proNGF) like its mature form is characterized by the cystin knot motif consisting of three cystine bridges, whereas proneurotrophins and mature neurotrophins elicit opposite biological effects. ProNGF functions preferentially via the complex of pan-neurotrophin receptor p75 (p75NTR) and vps10p domain-containing receptor sortilin inducing neuronal apoptosis and contributing to age- and disease-related neurodegeneration.

### Product Info

**Amount :** 50 µg

**Content :** Lyophilized from a 0.2 ?m filtered solution of 20mM Tris-HCl,500mM NaCl,5%Trehalose,5%Mannitol,0.01%Tween80,1mM EDTA,pH8.0.

**Storage condition :** Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).  
Lyophilized proteins are shipped at ambient temperature.
