12-9553: Anti-Dxd antibody(1E6); Rabbit mAb

Clonality: Monoclonal

Clone Name: 1E6
Application: ELISA
Reactivity: N.A.
Isotype: Rabbit IgG

Description

Description: Anti-Dxd antibody(1E6); Rabbit mAb

Dxd is a potent anti-cancer drug, acting as an alkaloid camptothecin analog and a DNA topoisomerase I inhibitor. It forms a stable complex with topoisomerase I and DNA, impeding DNA replication and inducing cancer cell death. Dxd is utilized as a payload in specific antibody-drug conjugates (ADCs), with examples such as trastuzumab deruxtecan targeting HER2 and patritumab deruxtecan targeting HER3.

Product Info

Amount: 10 μg / 100 μg

Purification: Purified from cell culture supernatant by affinity chromatography

Content: Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before

lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended

Storage condition: for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient temperature.

Application Note

ELISA 1:5000-10000

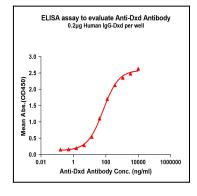

Figure 1. Elisa plates were pre-coated with IgG-Dxd (0.2νg/per well). Serial diluted anti-Dxd monoclonal antibody solutions were added, washed, and incubated with secondary antibody before Elisa reading. From above data, the EC50 for anti-Dxd monoclonal antibody binding with IgG-Dxd is 68.68ng/ml.
