12-9521B: Biotinylated Anti-GPNMB antibody(11G4), IgG1 Chimeric mAb

Clonality :	Monoclonal
Clone Name :	11G4
Application :	Flow Cyt
Reactivity :	Human
Gene :	GPNMB
Uniprot ID :	Q14956
Alternative Name :	HGFIN;NMB;PLCA3
Isotype :	IgG1

Description

The protein encoded by this gene is a type I transmembrane glycoprotein which shows homology to the pMEL17 precursor, a melanocyte-specific protein. GPNMB shows expression in the lowly metastatic human melanoma cell lines and xenografts but does not show expression in the highly metastatic cell lines. GPNMB may be involved in growth delay and reduction of metastatic potential. Two transcript variants encoding different isoforms have been found for this gene.

Product Info

Amount :	10 µg / 100 µg
Purification :	Purified from cell culture supernatant by affinity chromatography
Content :	Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.
Storage condition :	Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.

Application Note

Flow Cyt 1/100

For Research Use Only. Not for use in diagnostic/therapeutics procedures.
