

**12-8148: Anti-Fentanyl (FEN3988)**

**Clonality :** Monoclonal  
**Clone Name :** FEN3988  
**Application :** ELISA  
**Isotype :** Mouse IgG1 k

**Description**

Specificity: Anti-fentanyl (Clone FEN3988) recognizes fentanyl.

Background: Fentanyl is a potent synthetic opioid analgesic that was originally developed as a powerful painkiller. Compared to other opioids, fentanyl is about 50-100 times stronger than heroin and morphine. In recent years, fentanyl has gained notoriety for its widespread misuse and involvement in a significant number of overdose deaths. Illicitly manufactured fentanyl, often mixed with other drugs or sold as a standalone substance, has become a major contributor to the opioid crisis. The drug's high potency poses a heightened risk of overdose, and its presence in the illegal drug market has led to a surge in opioid-related fatalities.

**Product Info**

**Amount :** 1.0 mg  
**Purification :** Purity: >95% by SDS Page and HPLC  
Preparation: This monoclonal antibody is purified by Protein G chromatography.  
Concentration:  $\geq 1.0$  mg/ml  
**Content :** Formulation: Formulated in 0.015M potassium phosphate buffer, 0.85% NaCl, pH 7.2 and contains 0.05% sodium azide.  
**Storage condition :** 2-8°C for 2 years if unopened, -20°C for long term storage.
