

12-8237: Anti-Marburg Virus, Nucleoprotein (Clone MARV-2903)

Clonality : Monoclonal
Clone Name : MARV-2903
Application : ICC/IF
Alternative Name : MARV
Isotype : Mouse IgG1

Description

Specificity: Anti-Marburg Virus (Clone MARV-2903) has known reactivity for the viral antigen Nucleoprotein (NP) of several native strains. It is negative for reactivity to Ebola Virus and non-reactive with mammalian cells (IFA).

Background: Marburg virus is a rare but highly infectious and deadly RNA virus that belongs to the Filoviridae family, the same family as Ebola virus. Marburg virus causes a severe and often fatal hemorrhagic fever in humans and non-human primates, known as Marburg virus disease (MVD).

Product Info

Amount : 250µg

Concentration: ≥ 1.0 mg/ml

Content : Formulation: Formulated in 0.01 M phosphate buffered saline, pH 7.2 and contains 0.1% sodium azide. Due to inherent biochemical properties of antibodies, certain products may be prone to precipitation over time. Precipitation may be removed by aseptic centrifugation and/or filtration.

Application Note

ELISA: 1:20-1:200
