

**12-8385: Anti-Trichomonas vaginalis (TV-3907)**

<b>Clonality :</b>	Monoclonal
<b>Clone Name :</b>	TV-3907
<b>Application :</b>	ELISA
<b>Alternative Name :</b>	Hybridoma Monoclonal Antibody
<b>Isotype :</b>	Mouse IgG1

**Description**

Specificity: Anti-Trichomonas vaginalis (Clone TV-3907) is specific for Trichomonas vaginalis.

Antigen: Trichomonas vaginalis

Background: Trichomonas vaginalis is a protozoan parasite that causes Trichomoniasis, a common STI. Infection is more common in women than men and only approximately 30% of those infected will have symptoms.

**Product Info**

<b>Amount :</b>	250µg
<b>Purification :</b>	Purity :>=90% Preparation : This monoclonal antibody is purified by protein A chromatography or sequential differential precipitations. Concentration: >=1.0 mg/ml
<b>Content :</b>	Formulation: Formulated in 0.01 M phosphate buffered saline, pH 7.2 and contains 0.1% sodium azide. Due to inherent biochemical properties of antibodies, certain products may be prone to precipitation over time. Precipitation may be removed by aseptic centrifugation and/or filtration.
<b>Storage condition :</b>	This purified antibody is stable when stored at 2-8°C. Do not freeze.

**Application Note**

ELISA: 1:20-1:200, IF: 1:10-1:50
