

## 12-9070PE: PE-conjugated Anti-B7-H3 (enoblituzumab biosimilar) mAb

|                           |                                          |
|---------------------------|------------------------------------------|
| <b>Clonality :</b>        | Monoclonal                               |
| <b>Reactivity :</b>       | Human                                    |
| <b>Gene :</b>             | B7-H3                                    |
| <b>Uniprot ID :</b>       | Q5ZPR3                                   |
| <b>Alternative Name :</b> | MG-A271, MGA271,B7-H3;CD276;B7 homolog 3 |
| <b>Isotype :</b>          | IgG1                                     |

### Description

Research grade biosimilar. Not for use in therapeutic or diagnostic procedures for humans or animals.

### Product Info

|                            |                                                       |
|----------------------------|-------------------------------------------------------|
| <b>Amount :</b>            | 100 test                                              |
| <b>Content :</b>           | Formulation: Liquid□PBS with 0.05% Proclin300, 1% BSA |
| <b>Storage condition :</b> | Store at 2°C-8°C for 6 months                         |

### Application Note

Flow Cyt 1:100
