

12-9448-PE: PE-conjugated Anti-EPHA4 antibody(DMC472); IgG1 Chimeric mAb

Clonality :	Monoclonal
Clone Name :	DMC472
Application :	Flow Cyt
Reactivity :	Human
Conjugate :	PE-conjugated
Gene :	EPHA4
Uniprot ID :	P54764
Alternative Name :	EK8; HEK8; SEK; TYRO1
Isotype :	Rabbit/Human Fc chimeric IgG1

Description

This gene belongs to the ephrin receptor subfamily of the protein-tyrosine kinase family. EPH and EPH-related receptors have been implicated in mediating developmental events; particularly in the nervous system. Receptors in the EPH subfamily typically have a single kinase domain and an extracellular region containing a Cys-rich domain and 2 fibronectin type III repeats. The ephrin receptors are divided into 2 groups based on the similarity of their extracellular domain sequences and their affinities for binding ephrin-A and ephrin-B ligands. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq; Jan 2015]

Product Info

Amount :	100 Test
Purification :	Purified from cell culture supernatant by affinity chromatography
Content :	Liquid PBS with 0.05% Proclin300, 1% BSA
Storage condition :	Store at 2°C-8°C for 6 months

Application Note

Flow Cyt 1:100
