

12-8519: Anti-Human TNFRSF14 (CT)

Clonality :	Polyclonal
Application :	IHC,WB
Reactivity :	Human
Alternative Name :	Tumor Necrosis Factor Receptor Superfamily Member 14, Herpesvirus Entry Mediator (HVEM), TR2, ATAR, HVEA, LIGHTR

Description

Specificity: Rabbit Anti-Human Tumor Necrosis Factor Receptor Superfamily Member 14 (TNFRSF14) recognizes Human TNFRSF14. This polyclonal antibody was purified using affinity chromatography.

Background: Tumor necrosis factor receptor superfamily member 14 (herpesvirus entry mediator), also known as TNFRSF14, is the cellular receptor for TNF superfamily 14 (LIGHT). TNFRSF14 is a type I membrane protein that is considered as a Herpesvirus entry mediator. It is able to inhibit the proliferation, activation, and cytokine production of T cells. TNFRSF14 is expressed by peripheral blood T cells, B cells, monocytes and in various tissues enriched in lymphoid cells.

Product Info

Amount :	20 µg / 0.1 mg
Content :	Concentration: 0.5 mg/ml Formulation: This polyclonal antibody is formulated in phosphate buffered saline (PBS) pH 7.4 containing 0.02% sodium azide as a preservative.
Storage condition :	This polyclonal antibody is stable for at least one week when stored at 2-8°C. For long term storage, aliquot in working volumes without diluting and store at -20°C in a manual defrost freezer. Avoid Repeated Freeze Thaw Cycles.
