

32-1472: IL 17F His Recombinant Protein

Alternative Name : Cytokine ML-1,IL-17F,Interleukin-17F precursor,IL17F,ML1,ML-1.

Description

Source : Escherichia Coli. IL 17F His Human Recombinant produced in E.coli is a single, non-glycosylated polypeptide chain containing 158 amino acids (31-163) and having a molecular mass of 17.6kDa.IL 17F His is fused to a 25 amino acid His-tag at N-terminus & purified by proprietary chromatographic techniques. IL-17F having an accession number of Q96PD4 is a cytokine that shares sequence similarity with IL17. IL-17F is expressed by activated T cells, and has been shown to stimulate the production of several other cytokines, including IL6, IL8, and CSF2/GM-CSF. IL-17F inhibits the angiogenesis of endothelial cells and induce endothelial cells to produce IL2, TGFB1/TGFB, and monocyte chemoattractant protein-1. IL-17F induces stromal cells to produce proinflammatory and hematopoietic cytokines. Intestinal IL17F gene expression is increased in active CD.IL-17A & IL-17F alleles influence the susceptibility to and pathophysiological features of ulcerative colitis independently. IL-17F and MIF gene polymorphisms are significantly associated with the development of functional dyspepsia.The initiation of IL-17F/IL-17R signaling pathway requires the receptor ubiquitination by TRAF6. IL-17F induces expression of IFN-gamma-inducible protein 10 (IP-10) by activating Raf1-mitogen-activated protein kinase 1/2-extracellular-regulated kinase 1/2-p90 ribosomal S6 kinase-cyclic AMP response element-binding protein signaling pathway.

Product Info

Amount :	25 µg
Purification :	Greater than 85% as determined by SDS-PAGE.
Content :	The IL 17F His solution (1mg/ml) contains 20mM Tris-HCl buffer (pH 8.0), 0.4M Urea and 10% glycerol.
Storage condition :	Store at 4°C if entire vial will be used within 2-4 weeks. Store, frozen at -20°C for longer periods of time. For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA).Avoid multiple freeze-thaw cycles.
Amino Acid :	MGSSHHHHHH SGLVPRGSH MGSHMRKIPK VGHTFFQKPE SPPVPGGSM KLDIGIINEN QRVSMRNIE SRSTSPWNYT VTWDPNRYPS EVVQAQCRNL GCINAQKED ISMNSVPIQQ ETLVVRKHQ GCSVSFQLEK VLVTVGCTCV TPVIHHVQ
