## 11-3039: Polyclonal Antibody to Mouse TLR4

**Clonality:** Polyclonal

Application: WB
Reactivity: Mouse
Gene: Tlr4
Gene ID: 21898
Uniprot ID: Q9QUK6
Format: Purified

**Alternative Name :** Toll-like receptor 4, CD284

**Isotype:** Rabbit IgG

Immunogen Information: A partial length recombinant m TLR4 protein (amino acids 400-650) was used as the

immunogen for this antibody.

## **Description**

TLR4 (Toll-like receptor-4) is a member of the Toll-like receptor (TLR) family which plays a fundamental role in pathogen recognition and activation of innate immunity. It primarily mediates cellular signaling induced by Gram negative bacteria. TLR4 is highly specific for LPS and it is associated with CD14, a co-receptor for LPS. The downstream signaling pathway of TLR4 leads to the activation of NF-kappaB through myeloid differentiation protein (MyD88) and IL-1 receptor-associated kinase in various cell types.

## **Product Info**

**Amount :**  $25 \mu g / 100 \mu g$ 

**Purification :** Protein A Chromatography

**Content:** 25 μg in 50 μl/100 μg in 200 μl PBS containing 0.05% BSA and 0.05% sodium azide. Sodium

azide is highly toxic.

**Storage condition :** Store the antibody at 4°C, stable for 6 months. For long-term storage, store at -20°C. Avoid

repeated freeze and thaw cycles.

## **Application Note**

Western blot analysis: 1-2 µg/ml

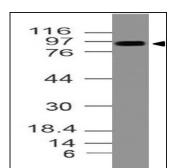

Figure-1:Western blot analysis of mTLR4. Anti- mTLR4 antibody (11-3039) was used at 2  $\mu$ g/ml on m Colon lysate.
